B. Administration and Problems

Records Hanagement Section

The microfilming of the Miographic Register dessiers for the Vital Materials program was storted 16 August 1953.

It is estimated that there are 100 five (5) drawer cabinets containing appreximately 175,000 cases to be microfilmed.

Work is continuing on the compiling of vital material deposit schedules.

Records Center Section

The control files were revised to show the location of pollatized records in

Requests for records and distribution materials have now been contralised. All calls are received on extension

STAT

Personnel stationed in Rosslyn are processing JAMIS reports. This work involves morating, repacking, arranging and inventorying the material.

A three way combination lock has been placed on the office door in the

It will no longer be necessary for personnel on
they there to pick up and return a key to

25X1

Shelved records in the Center have now been shifted and consolidated in order to pick up the maximum amount of contiguous space. One room, 10hB, has been explicit.

Mail Control Section

There were no trips to DDI and DGI homes.
